

Safety and Vulnerability Assessment Report

Dear School Administrators,

Our students and staff's safety and security are paramount in the contemporary educational landscape. However, it is a sobering reality that many of our nation's schools were constructed at a time when these critical considerations were not at the forefront of design and planning. The result is a nationwide portfolio of educational facilities that may need more modern security standards, leaving them vulnerable to today's evolving threats.

Recognizing the urgent need to address these challenges, we have leveraged state-of-the-art technology to provide a comprehensive Safety and Vulnerability Assessment through our digital site assessment mobile app, SITE|SAFETYNET?. This digital report is not only a reflection of our commitment to employing the latest technology to safeguard our students but also a versatile tool that can be shared and utilized in various ways:

- **For Discussion:** Engage stakeholders in meaningful conversations about your facilities' current safety and security.
- **Tabletop Discussions:** Utilize the report in simulated exercises to explore and understand potential scenarios, fostering a culture of preparedness.
- **Safety Triage and Improvements:** Leverage the insights provided to prioritize and implement necessary enhancements to your school's safety infrastructure.

Your partnership in this vital endeavor is greatly appreciated.

Sincerely,
Protecting Our Students, Inc.

THREE (3) LEVEL(S) - IMPROVEMENTS AREAS

LEVEL A: POLICE PARTNERSHIP + SAFETY POLICIES

This level assesses your existing partnerships, highlighting misaligned safety discrepancies and security metrics and establishing a solid foundation for continuous improvement + Conduct a detailed examination and analysis of existing systems and safety protocols and policies, ensuring their alignment with industry best practices and mandated regulatory standards.

LEVEL B: FACILITY EXTERIOR + NEIGHBORHOOD

Carry out a comprehensive evaluation of the campus's exterior areas, encompassing entranceways, parking facilities, boundary fencing, and all outdoor spaces, to ensure optimal safety measures + Carry out a comprehensive evaluation of the campus's exterior areas, encompassing entranceways, parking facilities, boundary fencing, and all outdoor spaces, to ensure optimal safety measure!

LEVEL C: FACILITY INTERIOR

The Comprehensive Interior Campus Evaluation is an extensive assessment process that meticulously inspects and analyzes all interior spaces within a school's infrastructure. This evaluation is the most exhaustive level of our safety audits, ensuring a thorough examination of every corner of the school's interior. By conducting a Comprehensive Interior Campus Evaluation, we aim to identify and address potential safety concerns, creating a safer learning environment for students and staff. This rigorous process is part of our commitment to preventing school shootings and enhancing safety.

RECOMMENDATIONS

Interior

Score: N/A

Action Plan:

- Based on the public data from schoolsafety.gov for the school's interior and gun safety readiness score of 22 out of 100%, it is clear that there is room for improvement. To ensure the school is providing a safe environment for its students, the following action plans should be implemented:
- Create an emergency response plan to be used in the event of an active shooter or other emergency situation. This should include protocols for sheltering in place, evacuating, and communicating with police and other emergency personnel.
- Develop a zero-tolerance policy for any student found in possession of a weapon on school grounds. This policy should be communicated to students, parents, and faculty.
- Establish a school safety committee comprised of faculty, staff, students, and parents. This committee should assess the current safety conditions of the school, review safety protocols and procedures, and provide feedback and recommendations for improvement.
- Conduct regular school safety drills to ensure students and faculty

RECOMMENDATIONS

Local law enforcement

Score: N/A

Action Plan:

- 43 out of 100% is not a good score for a school trying to improve its Local law enforcement and improve gun safety readiness. The following action plans are recommended to ensure the school is properly prepared and ready for any emergency:
- Increase collaboration between local law enforcement and school administrators. This includes regular meetings between the two parties to discuss safety procedures and any potential threats.
- Increase training for school personnel on emergency procedures, including active shooter drills and other safety protocols.
- Develop stronger relationships with local law enforcement to ensure that any safety concerns are addressed quickly.
- Develop a comprehensive school safety plan that includes procedures for responding to emergencies.
- Implement technology and communication systems that allow for immediate response in the event of an emergency.
- Increase resources and funding available to school safety teams to improve gun safety readiness.
- These action plans will help the school improve its Local law enforcement and gun safety readiness, ensuring the safety of its students and staff

RECOMMENDATIONS

Police Partnerships

Score: N/A

Action Plan:

- Based on the public data from schoolsafety.gov, a score of 33 out of 100% is not good for a school trying to improve its Police Partnerships and gun safety readiness. The following action plans should be implemented to improve Police Partnerships and gun safety readiness:
- Establish a task force of school administrators, police personnel, and community leaders to work together on a plan that will improve police partnerships and gun safety readiness in the school.
- Develop a comprehensive training program for school personnel, including police personnel, on gun safety, handling of dangerous situations, and de-escalation techniques.
- Create a system to track and monitor gun safety readiness in the school and implement regular drills and practices to keep gun safety readiness up to date.
- Develop and implement policies and procedures for responding to dangerous situations and for reporting suspicious activity.
- Establish a strong communication system between school personnel and police personnel to ensure that any potential threats or suspicious activity is reported and addressed

RECOMMENDATIONS

School Security and cameras

Score: N/A

Action Plan:

- 83 out of 100 is a relatively good score, however, there is still room for improvement. The following action plans or recommendations can be implemented to improve the school security and camera systems as well as gun safety readiness:
- Increase the number of cameras in order to monitor more areas of the school
- Implement a gun safety program to ensure that students and faculty are educated on gun safety and security protocols
- Enhance the security protocols, such as implementing key card access, to ensure that only authorized personnel can access certain parts of the school
- Provide additional training for security staff on proper protocols for responding to emergencies
- Establish regular security drills to ensure that students and staff are prepared in the event of an active shooter or other emergency situation
- Ensure that all emergency exits are properly marked and clearly visible in order to facilitate a safe evacuation
- In summary, implementing the above action plans and recommendations can help improve the school's security and camera systems as well as gun safety readiness

RECOMMENDATIONS

Sports facilities

Score: N/A

Action Plan:

- 11 out of 100% is not a good score for a school trying to improve its Sports facilities and improve gun safety readiness. To ensure the safety and security of the school and its students, the following action plans should be implemented:
- Increase the number of staff members who are trained in emergency response and crisis management.
- Utilize metal detectors and surveillance cameras to monitor the school environment.
- Establish a protocol for responding to potential threats and conducting regular drills.
- Develop and implement a policy for safe storage of firearms on school grounds.
- Provide a safe and secure environment for students by hiring additional security personnel.
- Increase education and awareness about gun safety, and provide resources for students and staff.
- Invest in new sports facilities and equipment to promote physical activity and health.
- In summary, the school should take proactive steps to improve its safety and security by increasing staff training, utilizing surveillance and metal detectors, establishing emergency protocols, providing resources

RECOMMENDATIONS

Cooperation with other schools

Score: N/A

Action Plan:

- A score of 56 out of 100% is below average and indicates that there is room for improvement in the school's Cooperation with other schools and gun safety readiness. To help improve this score, the school should take the following action steps:
- Develop a comprehensive safety plan outlining the school's approach to gun safety and cooperation with other schools.
- Establish a gun safety committee that meets regularly to review the safety plan and make any necessary updates.
- Develop protocols for communicating safety-related information with other schools in the district, including information about any incidents that may occur.
- Provide regular safety training for staff and students on gun safety and how to respond appropriately in an emergency.
- Ensure that all staff members are knowledgeable about the school's gun safety policies and procedures.
- Develop and implement a system for reporting any incidents related to gun safety.
- By taking these steps, the school can improve its Cooperation with other schools and gun safety readiness, helping to

KEY FOCUS AREAS FOR K-12 SCHOOL SAFETY AND SECURITY: EXPANDING ACTIVE SHOOTER PREVENTION

K-12 School Shooting Database: School Level

ENHANCING SCHOOL SAFETY: SCORING ACTIVE SHOOTER MEASURES

A total overall assessment score is calculated for each facility postassessment. In addition, the SITE|SAFETYNET? App scores each of the Three (3) Levels from 0 and 100 in the Top Priorities Chart, with 100 representing a school with ideal security. The scores are calculated using our analytic t e a m' s assessment test, a well-established decision support method. In general, a grade of 90-100 represents a facility that offers optimal security, a grade of 80-89 represents a facility that meets most security standards, a grade of 60-79 represents a facility that is lacking in significant areas of security, and a grade of 60 represents a facility that is in serious need of critical security updates. The scoring methodology allows for effectively comparing all types of schools on the same scale to provide a school district with an overall picture of its portfolio's needs. Even though there are different types of schools and supporting facilities, all facilities are graded on a similar set of factors and performance ratings using each school demography. In addition to a total overall score, facilities receive a subtotal score in each of the three (3) Levels. This enables comparisons between school facilities in these areas to determine consistency or priority throughout the district.
