

Safety and Vulnerability Assessment Report

Dear School Administrators,

Our students and staff's safety and security are paramount in the contemporary educational landscape. However, it is a sobering reality that many of our nation's schools were constructed at a time when these critical considerations were not at the forefront of design and planning. The result is a nationwide portfolio of educational facilities that may need more modern security standards, leaving them vulnerable to today's evolving threats.

Recognizing the urgent need to address these challenges, we have leveraged state-of-the-art technology to provide a comprehensive Safety and Vulnerability Assessment through our digital site assessment mobile app, SITE|SAFETYNET?. This digital report is not only a reflection of our commitment to employing the latest technology to safeguard our students but also a versatile tool that can be shared and utilized in various ways:

- **For Discussion:** Engage stakeholders in meaningful conversations about your facilities' current safety and security.
- **Tabletop Discussions:** Utilize the report in simulated exercises to explore and understand potential scenarios, fostering a culture of preparedness.
- **Safety Triage and Improvements:** Leverage the insights provided to prioritize and implement necessary enhancements to your school's safety infrastructure.

Your partnership in this vital endeavor is greatly appreciated.

Sincerely,
Protecting Our Students, Inc.

THREE (3) LEVEL(S) - IMPROVEMENTS AREAS

LEVEL A: POLICE PARTNERSHIP + SAFETY POLICIES

This level assesses your existing partnerships, highlighting misaligned safety discrepancies and security metrics and establishing a solid foundation for continuous improvement + Conduct a detailed examination and analysis of existing systems and safety protocols and policies, ensuring their alignment with industry best practices and mandated regulatory standards.

LEVEL B: FACILITY EXTERIOR + NEIGHBORHOOD

Carry out a comprehensive evaluation of the campus's exterior areas, encompassing entranceways, parking facilities, boundary fencing, and all outdoor spaces, to ensure optimal safety measures + Carry out a comprehensive evaluation of the campus's exterior areas, encompassing entranceways, parking facilities, boundary fencing, and all outdoor spaces, to ensure optimal safety measure!

LEVEL C: FACILITY INTERIOR

The Comprehensive Interior Campus Evaluation is an extensive assessment process that meticulously inspects and analyzes all interior spaces within a school's infrastructure. This evaluation is the most exhaustive level of our safety audits, ensuring a thorough examination of every corner of the school's interior. By conducting a Comprehensive Interior Campus Evaluation, we aim to identify and address potential safety concerns, creating a safer learning environment for students and staff. This rigorous process is part of our commitment to preventing school shootings and enhancing safety.

RECOMMENDATIONS

Interior

Score: N/A

Action Plan:

- It is clear that a score of 22 out of 100% is not good for a school trying to improve its interior and gun safety readiness. In order to make necessary improvements to address this issue, the following action plans should be implemented:
- Hold regular safety drills to help students and staff become accustomed to responding quickly and effectively to potential threats.
- Increase the number of security cameras and staff members in the school to ensure that any suspicious activity is monitored and reported.
- Develop a strict policy for gun safety, including the enforcement of background checks for anyone allowed to carry a weapon on school grounds.
- Create an anonymous tip line for students and staff to report any suspicious behavior or concerns they may have.
- Increase the availability of counseling and other mental health services to help students who may be struggling with stress, depression, or other mental health issues.
- Provide training to faculty and staff on how to respond to potential threats, including active shooter drills.
- In

RECOMMENDATIONS

Local law enforcement

Score: N/A

Action Plan:

- A score of 43 out of 100% on schoolsafety.gov is below average and indicates that there is room for improvement in the school's gun safety readiness. To ensure the safety of all students and staff, the following action plans should be implemented:
- Develop a safety plan and ensure that all faculty and staff are aware of and trained on the plan.
- Develop a system of communication between the school and local law enforcement to ensure active collaboration on safety.
- Ensure that any visitors to the school are properly identified and monitored via a visitor log or other system.
- Create a system for monitoring and tracking any weapons found on school grounds.
- Develop clear policies for the safe possession and storage of firearms, and ensure that these policies are enforced.
- Establish clear guidelines for reporting any suspicious activity or threats to school safety.
- Invest in additional security equipment, such as metal detectors, cameras, and locks.
- In summary, the school should take

RECOMMENDATIONS

Police Partnerships

Score: N/A

Action Plan:

- Based on the data from schoolsafety.gov, a score of 33 out of 100% is not good for a school trying to improve its Police Partnerships and gun safety readiness. To improve this score, the school should take the following action plans:
- Develop strong relationships between school administration, staff, and local police officers by creating regular meetings and events to discuss safety strategies and procedures.
- Establish clear protocols and procedures for handling firearms and related safety issues.
- Conduct regular training for school personnel on gun safety and the proper procedures for responding to potential threats.
- Develop a comprehensive emergency plan for responding to active shooter situations and other emergencies.
- Implement a school-wide anti-violence campaign to raise awareness of gun safety and the importance of reporting suspicious activity.
- By taking these action plans, the school will be better equipped to handle gun safety issues and create a safer environment for students, staff, and faculty. With stronger relationships between

RECOMMENDATIONS

School Security and cameras

Score: N/A

Action Plan:

- A score of 83 out of 100 is a solid score, however, there are still areas for improvement. To further improve the school's security and gun safety readiness, the following action plans should be put into place:
- Increase the number of surveillance cameras in hallways and entry points
- Establish and enforce strict firearms policies and procedures for all staff and students
- Increase staff and student training on gun safety and security
- Invest in new security technology such as metal detectors or access control systems
- Develop and implement emergency response plans
- Develop and implement an anonymous tip line for reporting suspicious behavior
- By implementing these action plans, the school can continue to improve its school security and gun safety readiness. These steps will help ensure that the school is a safe and secure environment for its students and staff.

RECOMMENDATIONS

Sports facilities

Score: N/A

Action Plan:

- 11 out of 100% is not a good score for a school trying to improve its Sports facilities and gun safety readiness. The following action plans and recommendations are suggested in order to improve the score:
- Develop and implement a comprehensive safety plan for the school's sporting facilities that cover both individual and collective safety measures.
- Ensure that all coaches, trainers, and staff are trained on emergency procedures and gun safety protocols.
- Establish clear and consistent procedures for responding to emergency situations and ensure that all staff and students are aware of these procedures.
- Increase the number of security guards and/or security cameras at the sporting facilities to increase visibility and reduce the potential for violent incidents.
- Establish a gun safety education program for all students, staff, and visitors to the school's sporting facilities.
- Implement an anonymous reporting system for suspicious activity or behavior at the sporting facilities.
- Regularly review and update the

RECOMMENDATIONS

Cooperation with other schools

Score: N/A

Action Plan:

- At 56 out of 100%, this school is not performing to its optimal potential in terms of Cooperation with other schools and gun safety readiness. The following action plans are recommended for improvement:
- Establish a dedicated gun safety committee that is responsible for setting and maintaining safety standards throughout the school.
- Develop a comprehensive communication strategy to ensure that all staff and students are aware of gun safety protocols.
- Implement regular safety drills to ensure that staff and students are adequately prepared in the event of an emergency situation.
- Establish a partnership with local law enforcement to provide additional resources and support for gun safety protocols.
- Increase cooperation between the school and other schools in the district to share best practices in terms of gun safety.
- Provide additional training and resources to staff and students to ensure that they are knowledgeable and prepared in terms of gun safety.
- By implementing these action plans, the school can significantly improve its Cooperation with other schools and gun safety

KEY FOCUS AREAS FOR K-12 SCHOOL SAFETY AND SECURITY: EXPANDING ACTIVE SHOOTER PREVENTION

K-12 School Shooting Database: School Level

ENHANCING SCHOOL SAFETY: SCORING ACTIVE SHOOTER MEASURES

A total overall assessment score is calculated for each facility postassessment. In addition, the SITE|SAFETYNET? App scores each of the Three (3) Levels from 0 and 100 in the Top Priorities Chart, with 100 representing a school with ideal security. The scores are calculated using our analytic t e a m' s assessment test, a well-established decision support method. In general, a grade of 90-100 represents a facility that offers optimal security, a grade of 80-89 represents a facility that meets most security standards, a grade of 60-79 represents a facility that is lacking in significant areas of security, and a grade of 60 represents a facility that is in serious need of critical security updates. The scoring methodology allows for effectively comparing all types of schools on the same scale to provide a school district with an overall picture of its portfolio's needs. Even though there are different types of schools and supporting facilities, all facilities are graded on a similar set of factors and performance ratings using each school demography. In addition to a total overall score, facilities receive a subtotal score in each of the three (3) Levels. This enables comparisons between school facilities in these areas to determine consistency or priority throughout the district.
